Day of the Family Town Meet

The Family Town Meeting Saturday is important second only to the July 1 seating of the new City Council ceremonies in this year's historically exciting sequence of events.

A well-written round-up of the Saturday meeting was submitted by E. K. Mott, head of the Journalism Department at Mt. Miguel High School. Names of people you will join and events you will take part in are listed.

By E. K. Mott,
Family Town Meet Publicist

For the citizens of Lemon Grove it will be a dream come true; for the councilmen recently elected to guide the newly designated city, it will be "input" come true!

The Family Town Meeting, scheduled from 9:5 p.m. Saturday, at St. John of the Cross Church auditorium, will provide both sides with a unique opportunity. In addition it will give young people a chance to air their hopes and dreams for the future as well in a "Mini" Town Meeting of their own, if they are below junior high school age; for those in grades seven and above, their participation in the adult workshop will be welcomed.

The all-day event will feature Assemblyman Pete Chacon, plus a luncheon and workshops that will be driving toward one goal: to get down on paper what citizens want for Lemon Grove in the future.

Donna Beckley, coordinator for the event, said that whether the recent incorporation movement had succeeded or failed, the Town Meeting would be ideal for the community since some type of coordination is needed.

"The Town Meeting concept is international; it was done in over 750 communities last year. Los Angeles, as well as other communities, is doing this very same thing. Oklahoma had 100 Town Meetings on the same day recently; this week, another 150. While the concept is based on an old New England pattern, I am happy to say that it is making a comeback," she said.

Registration is \$1 a person or \$2 per family, including the luncheon. Those who pre-registered will have their tickets and space reserved; latecomers can register at the door.

Registration forms are obtainable at the library, fire station, and all Lemon Grove schools, or by calling 469-0695 or 469-4115. "Those outside Lemon Grove are also invited," said Robert Adams, fire chief, "but especially the young for they are the future of the community."

A steering committee of 25, in addition to Beckley, program director of Monterey Heights Community School, Chief Adams and Estelle Lauer have helped plan the day's program.

One of the four groups will concentrate on writing the history of Lemon Grove, documenting all of its struggles, achievements, and hopes for the future. It will also compose a community song and select a community symbol; this group's function is to present a drama to the total workshop body when it re-assembles.

Operating throughout the day will be a group that will be assembling a 20-50 page document of the day's happenings which will be given to everyone at the close of the day's activities.

"Whatever happens beyond this day," said Beckley, "will be up to the Chamber of Commerce and the City Council. The rough tools will have been put in their hands for polishing."

A California State flag that Assemblyman Chacon will present to the new city, will be a spur to achievements that can only add luster to this area's already significant accomplishments," she said.

Carnival Produces \$1,100 For Old Time Days Parade

Funds to defray costs of the Old Time Days Parade Saturday April 30 were assured when the Christiansen Carnival gave Old Time Days chairman, Leonard Klein \$1,150 which was promptly deposited in the OTD account on Monday. The carnival closed Sunday night.

During the 4-day carnival three door prizes were given. A bicycle was won by David Martinez of 1342 Glencoe dr., a student at Monterey Heights school.

Tax Exemption Deadline Nears

Homeowners' Exemption claim forms for 1977 must be filed by 5 p.m. April 15 to receive the full amount allowed by law, is the warning from County Assessor, E. C. Williams. "For the property owner living in the same home, and which received the exemption last year, the exemption is automatic and no action is necessary."

Williams emphasizes, however, "In case of doubt about qualifying for the exemption, or if a claim form was not received in the mail, the property owner should contact the Assessor's Office at 233-5451."

New claim forms will not be necessary from the vast majority of County property owners who have previously received this exemption, but it is the responsibility of the owners to notify the Assessor's Office if the property no longer qualifies due to change of ownership, or other reasons.

Rabbits, given by Fins 'n Feathers were won by Mary Lou Tibiatowski of San Diego and Mark Kriffing of 2009 El-dora st., Lemon Grove. The winners are in their early teens.

The next OTD event will be a square dance at L.G. Junior High school on Friday, April 29. Ron East, famed caller, will m.c. the affair which starts at 7 p.m. Demonstrations of square, round and clog dances will be given.

The parade has been set up into 6 divisions, according to Klein. Probably the total parade will be a bit smaller than in years past. "We are picking the best presentations and some of the less interesting ones are being dropped," he said.

He announced that SeaCap would again provide security for the event. SeaCap is the same organization which provided it last year. It is a civilian organization which performs such duties without charge.

Ballgame to Aid Kip Hayes Fund

The Joker and 3 Aces, a 4-man fast-pitch softball team will play against 9 men of Mt. Miguel faculty on the Helix High school softball diamonds at 7:30 p.m. Old Time Days—April 30th.

Admission is by donation and all proceeds will go to the Kip Hayes Fund. Hayes is the paralyzed youngster who was injured in a high school football game.

LAST THREE ENTRIES? — The deadline to sign up for the Miss Lemon Grove contest is tomorrow when all entries must be in to Pageant Chairman Craig Lake. So far the pageant has four entries: Lisa Conklin, right, 17, a junior at Mt. Miguel; Michelle Myers, 17, a Mt. Miguel senior; and Bettina Bacon, left 17, a junior also from Mt. Miguel High. Not pictured is Charlotte Gundersen, 19, of 2291 Cypress ave. The pageant is scheduled for 7:30 p.m. April 23 at Lemon Grove Junior High and this year's selection will be special year-long emissary of the city of Lemon Grove.

Task is Awesome

Preview of Workload to Come Given to New City Lawmakers

The enormity of the task of giving life to a new city began to unfold Thursday night at the first of a series of bi-weekly meetings to be held every Thursday night at the Lemon Grove Fire Station. Listing some of the duties and obligations of the city fathers were Tom Parks, liaison representative who was supplied by the County Board of Supervisors and Charlotte Langley of the County office of Intergovernmental Affairs.

To get things moving, the five councilmen were sworn in as an advisory committee to the county board of supervisors.

Then in a voice election the council elected Jim Dorman and Dr. Robert Burns, chairman and vice chairman, respectively of the committee which will operate as an official arm of the board of supervisors until July 1. After that they are on their own.

A change in the re-election schedule was announced. It was discovered that the March 8 election was one day less than the full year allotted elected officials to avert having to run in 1978.

All five, if they seek re-election, will run again in 1980. The three getting the least votes will face election in 1982 while the other two will stand in 1984.

Earlier, it had been announced that Dale Bailey and

Jack Doherty would have to seek election next March—after just 8 months of officiating, and that Councilman Dell Lake, Dr. Robert Burns

and Jim Dorman would face the polls in 1980.

Parks, an executive assistant of the County Integrated Planning Office, told the newly formed committee that "the most important action you will take on July 1 will be to acquire liability insurance to start from the minute you are

sworn in (again) as councilmen."

He told the men that "it is not too early to seek eligibility for revenue-sharing funds." The period starts October 1, he noted.

La Mesa Passes The Buck Again

Morgan Tries to Move Mass. Bus Stop—Plan Fails

School Board Trustee Vicky Morgan kept to one of her campaign promises in Tuesday night's Lemon Grove School Board meeting when she stood up in defense of a plan to move the Blackton Circle dr. bus stop to a new location on North Massachusetts.

The school bus stop on Massachusetts drew criticism from parents on Blackton Circle in February after a fatal traffic accident. The parents are up in arms because their children still wait for Lemon Grove School district buses at a stop on the dangerous Vista La Mesa street.

"The problem is having the children stand on Massachusetts," Morgan told the Board, "You still have kids walking on the street. I think the situ-

ation we have here is dangerous."

Morgan then proposed to move the stop north on Massachusetts so that both drivers and children would have greater visibility of oncoming traffic.

She added La Mesa Police, who now have jurisdiction over the area, have said the situation is dangerous and the Lemon Grove School district should make different arrangements.

But Trustee Jim Dorman saw La Mesa's stand as pawning the problem off onto Lemon Grove.

"I don't think this school district has jurisdiction for La Mesa's traffic control," said Dorman, "It doesn't seem to me it is the responsibility of this Board."

"Personally I would like to see La Mesa do something about the problem," Dorman continued, "My opinion is that they are saying: it is yours School Board to make it safe."

Dorman added the cost to the Lemon Grove school district would be an excess.

"We are talking about a pretty expensive operation?" Morgan interrupted.

"If it wasn't a traffic problem we would not be provided."

Hayakawa's Rep In Town Today

James McKinney, field representative for U.S. Senator S. I. Hayakawa will be at the Lemon Grove-San Diego Information and Referral Center at 7733 Palm ave. (Palm and Imperial), suite "N" in Lemon Grove, 10 a.m.-3 p.m. today.

"The purpose of the visit," said McKinney, "is to listen, not to talk." The Senator is interested in finding out more about what people are thinking and concerned in helping them cut through the so called 'red-tape' of the federal bureaucracy."

"This visit will give me the opportunity to help people with their federally-related difficulties," McKinney continued. "The entire concept is part of the Senator's concept of bringing government closer to the people."

Residents of the Lemon Grove, East San Diego, and Spring Valley areas are invited to stop by and are encouraged to limit their topics to those of a federal nature. This would include such things as Social Security and Veterans Administrations and other federal agencies.

Councilman Meets

Meanwhile, Dell Lake, newly elected City of Lemon Grove councilman, has agreed to hold conferences at the Center each Wednesday 2-5 p.m.

Lake said he would discuss any element of the coming city government with anyone who drops in and wants to talk.

He said he is particularly anxious to get ideas for inaugural ceremonies for the council's seating on July 1.

Priorities Listed For City Action

Lemon Grove residents have solid ideas about the priorities their new city government should concern itself with.

Last week in this newspaper there was an invitation for readers to list priorities and mail them to us. They did!

Here is a sampling: E. J. Strzelecki of Washington st. wanted an ombudsman most of all. He then wanted rebuilt storefronts, better shopping parking and landscaping on Broadway and the railroad tracks—in that order. He listed 14 items.

F. D. Johanson of Central ave. wanted protection from park hoodlums, more police protection, and enforced speed limit and better traffic control.

A reader on San Miguel ave. wanted protection from park hoodlums, road repair, enforced speed limits and trash pickup service.

Harry Matthews of Church st. wants more protection and residential patrols, sidewalks and curbs, trash pickup and crashdown on hoodlums and vandals.

These and other requests will be passed on to the city council when it convenes in July.

Why a City Council?

One of a Series

The League of California Cities produced a "HANDBOOK FOR NEW COUNCIL MEMBERS" which was distributed recently to the five councilmen who will operate the City of Lemon Grove.

There is no school for councilmen. They will learn by doing. That is why the Handbook will prove a good guide, not only for the councilmen, but for citizens, too.

That is why excerpts will be reproduced here from week to week. The book was written in 1976 by Charles R. Martin city attorney for several cities near Pasadena.

"Congratulations," Martin tells new councilmen, "You are joining approximately 2100 other council members in over 400 cities in California."

"In your new status as a director of a municipal corporation, every citizen in the city is a stockholder entitled to be heard and to criticize your public and private conduct. Your actions on the city council are everyone's business and for a very good reason."

As a councilman, you share with other members powers over the lives and over the property of your municipal stockholders to:

- 1. declare their conduct criminal;
- 2. tax them;
- 3. condemn their property for public use;
- 4. regulate their business; and
- 5. tell them how and for what purposes they may use their property.

In return, the community makes the council responsible for protecting it against crime, disease, fire, and a host of other social and economic evils.

The powers are necessary if the responsibility is to be fully discharged.

CHURCH'S FOUNDER—Mrs. Mary Esther Ray, 7931 1/4 Palm ave., will be honored this Sunday as St. Philip's Episcopal Church will celebrate its 25th anniversary. Mrs. Ray founded the present church in her home during the early 1950's.

church, 2660 Hardy drive, and a reception honoring both Rev. Wolterstorff and Mrs. Mary Esther Ray, church founder, will follow.

The church began more than 25 years ago in the living room of Mrs. Mary Ray's home at 7931 Palm ave. Meeting there was the founding group of former members of St. Andrew's Episcopal Church of La Mesa who wanted a parish of their own in Lemon Grove.

As the group grew, the meeting place was changed several times. First on February 4, 1951, the group moved from Mrs. Ray's home to the Foward Club, the meeting place for the Lemon Grove Women's Club. From there the church moved again to the V.F.W. Hall at the corner of Lincoln and Imperial.

The first Episcopal church in Lemon Grove was built during 1953 and held its first service November 29, 1953. The Rev. Charles D. Evans celebrated the church's first Holy Communion Service. That structure now serves as the Parish Hall and stands on the corner of Palm and Hardy sts.

In 1953, the mission was of-

ficially accepted into the Diocese of Los Angeles under the Rt. Rev. Francis Eric Bloy, D.D. S.T.D. Bishop Bloy was then appointed as the first Vicar.

Following Vicars were The Rev. J. Phillip Bartlett, who served for 14 years and the Rev. Kenneth R. Johnson who served as pastor during the final days of the Lemon Grove Episcopal Mission.

On January 29, 1968 after over 20 years of growth, the little Mission started in Mrs. Ray's living room achieved Parish status. The Rev. Johnson was named as the First Rector by the newly elected Vestry at the first Annual Meeting of the St. Philip's Episcopal Church of Lemon Grove.

Construction of the present church began March 18, 1969. It was completed and dedicated on September 20, 1970.

The church befall calamity on March 18, 1973 when a 12 year old boy set fire to it just before Palm Sunday services. Destroyed in the fire was a stained glass window acquired from St. Paul's Church in San Diego.

The present church was completely restored by mid-1974 and dedicated on June 16, 1974. The famous stained glass window from St. Paul's was exactly copied by craftsmen from England.

Also attending this Sunday's anniversary will be Capt. Ray Lewis of the Church Army who assisted in the early years of the Mission; the Rev. J. Phillip Bartlett, First Vicar; the Rev. Canon Charles L. Conder, D.D.; and the Wardens and Vestry of the Parish.

Home Workers May Receive Injury Comp.

Governor Jerry Brown signed into law April 2 a new piece of legislation which clears questions on household workers' compensation.

Now, only those household workers who meet minimum time and earnings requirements will be eligible for workers' compensation benefits under their employer's liability insurance policy in event of injuries sustained on the job.

The new law limits worker's compensation coverage to casual and household employees who in the 90 days prior to the injury worked both a minimum of 52 hours and earned at least \$100.

This Week's RECIPE

Majestic Curry Salad

Here's an impressive main dish in tune with spring fever which also satisfies several of today's consumer concerns.

Majestic Curry Salad is an almost perfect choice for busy, nutrition-minded cooks on a budget. One serving of this salad provides 35 per cent of the US Recommended Daily Allowance for protein, yet costs approximately 50 cents per serving.

Unlike other salads that require last minute preparation to insure crisp ingredients, Majestic Curry can be made the day before. This allows the flavors to blend.

MAJESTIC CURRY SALAD
6 cups shredded lettuce,
2 10 oz. pkgs. frozen peas,
cooked, drained, chilled
3 cups chopped chicken
or turkey
3 cups tomatoes
2 cups cucumber slices,
cut in half
3 cups mayonnaise
1 tablespoon sugar

1½ teaspoons curry powder
3 cups croutons
Layer lettuce, peas, chicken, tomatoes and cucumber in 5 quart salad bowl. Combine mayonnaise, sugar and curry; mix well. Spread over salad. Cover; refrigerate overnight. To serve, sprinkle with croutons. 8 to 10 servings.

New Head Start Programs Headed For Grove Children

Lemon Grove and Spring Valley area parents may soon be able to take advantage of the Federal Health, Education, and Welfare Department's Head Start Programs.

The Helix Head Start Model Center is instigating two new programs both stressing participation of parents.

According to staff worker Henry Fuller, Head Start is currently accepting applications from parents to volunteer for Head Start's Home Base Program.

The program focuses on training parents in their own homes how to provide proper nutrition, mental health, and shows them early learning patterns of their children.

The second program is scheduled to begin May 15 and is called the Center Base Program.

Center Base provides the same basic elements as does the Home Base program but instead of in the home it is in one central location.

The Spring Valley Church of the Nazarene, 3310 Bancroft drive has been designated the office for Center Base and will be set up as a comprehensive child care center.

Parents may leave their children at the center during the day while they work.

The program has to follow strict federal HEW guidelines which limits participation to families under federal poverty levels, Fuller explained.

"The overall goal of the program is to include at least ten per cent handicapped children," said Fuller, "90 per cent of the families participating must be below the Federal poverty level but our guidelines allow us to accept up to ten per cent who live

above that limit."

Helix Head Start currently has a staff of eight trained full-time social workers and plans to expand to 23 by May 15.

Fuller said the volunteer program is essential to the start up of the Center Base program and to the continuation of Home Base.

Volunteers may call 464-8845 to take part in the programs.

Sales table reservations can be made through Grace Johnson, 4555 44th street, San Diego, 92115.

Termite Season Is Spring Alertness Is Advised

Showers may bring flowers but they also bring pests—especially termites.

The California Pest Control Operators are reminding homeowners to be on the lookout for these pests especially during this time of year.

Termites will come out from winter hibernation to mate and set up new colonies. Springtime is perfect for swarms to form.

Homeowners should be watchful of these signs of swarming:

—Piles of tiny discarded wings on the floor beneath doors or windows. Termites shed their wings after mating and begin searching for a suitable site for new colonies.

—Blistered or darkened areas on hardwood floors, window sills, or frames, beams and joints.

—Small earthen shelter tubes on the surface of foundation walls. Subterranean termites nest in soil and construct these tubes as freeways into the house. The tubes protect them from their natural enemy, ants.

Another variety of termite common to California yet different from the subterranean species is the drywood termite.

Drywood termites may infest any part of the home but they are especially fond of attics

or window frames.

Telltale signs of these pests are straw colored or reddish brown fecal pellets near woodwork. These termites, unlike their earth-preferring brothers, usually swarm in the Autumn.

These mini-beasts have been on this planet for some 250 million years and are especially healthy in the mild climate of Southern California. Homeowners' alertness can thwart the disaster these wood munching menaces cause.

The first show begins at 11 a.m., followed by another at 12:45. The demonstrations will be held on the Walker-Scott store's lower level, across from the housewares department.

Mrs. Herbert is the author of "The Crepe Book" cookbook, which features more than 50 recipes for crepes and blintzes. The book is the latest in a series of paperback cooking books published by her San Francisco publishing firm, Owlswold Productions.

During each of her Walker-Scott shows, Mrs. Herbert will make several cheese blintzes, shrimp and dill crepes, and apricot cream crepes. Samples of these dishes and copies of her basic recipe for dessert crepes and apricot cream crepes will be available after the demonstration.

Valdez is Firepower Of Tucson IVA Fire

TUCSON — Byron Shewman is a 30-year-old volleyball player who starred at San Diego State and last year became player-coach of the International Volleyball Assn. club in Tucson.

Hampered by the absence of an outstanding setter and a tall front line, his team had the worst record in the league, 11-29.

Now, Shewman, a blond 6-1 hitter-blocker, has new hope, or esperanza, as they say in Mexico City. Bob Garrett, the new general manager of the Tucson Sky, recently received a visa for Baldemar Valdez, the flashy setter from Mexico City.

Valdez, 25, has been the key player on the Mexican national team the last five years. Shewman played against him two years ago when Mexico ended the United States' hopes for an Olympic volleyball berth in Montreal. And Shewman is impressed.

"I am very excited about our team," he said. When he called Baldemar, Byron said "Estoy muy contento," which is approximately the same thing.

Setting, the most important ingredient in winning power volleyball, is an art that Valdez has mastered with a flair.

"He likes to use the middle spiker as a decoy," Shewman explained. "Then he runs variations of plays around the decoy with his other two hitters. It's designed to confuse the blockers on the other side of the net. It's difficult to execute, but when it works, the other team has one or even no blockers to stop the spike."

For new volleyball fans, the comparison with pro football is to wind up with a pass receiver and the ball with zero defenders all the way to the goal line.

In addition to Valdez, Shewman has been attempting to sign two Mexican hitter-blockers to give the Sky an imposing front line. Byron hopes to make an announcement soon. Meanwhile, the new-look Sky organization is moving fast to sell season tickets.

The Sky opens the IVA's third season on Thursday night, June 9, against their in-state rivals, the Phoenix Heat.

An all-day square dance jubilee Sunday, June 26, will be a feature of the 88th annual Southern California Exposition at Del Mar which runs June 21 through July 4.

HOPING FOR COMEBACK — Johnny Miller, in the worst slump of his career, hopes to get his game together this week for the \$225,000 MONY Tournament of Champions at La Costa Country Club.

Miller, the 1974 champion here, has won only \$1,173 this year. First prize in the tournament which starts today is \$45,000. Last place money is \$2,000. Season tickets are \$24.

Can MONY Tourney End Johnny Miller's Slump?

RANCHO LA COSTA — Don't give up on Johnny Miller just yet. Who says so Johnny Miller.

"Anybody who thinks I'm washed up at 29 has an IQ of about 45," Miller said in a recent UPI interview. "I get a kick out of people who say I'm over the hill. That's just ignorance."

Regardless of one's IQ, it doesn't take a Sherlock Holmes to uncover ample evidence that Johnny Miller has been mired in a depressing slump for the first time in his eight-year career. Ordinarily around MONY Tournament of Champions time, Miller averages two victories and \$100,000 in the bank.

This year, he has been moving in an impoverished neighborhood. In eight tournaments, he has missed the 36-hole cut three times and three times has withdrawn because of an ailing wrist and shoulder.

Miller, winner of 17 career tournaments and \$1,083,040, has not finished better than 41st this year. He has won a paltry \$1,173.

He's sure to double his 1977 earnings at La Costa because the last-place finisher receives \$2,000. Not that Miller figures to finish last, although experts are beginning to minimize his chances of victory.

Miller had been quoted at 10 to 1 to win this prestigious title — one he captured in 1974. His chances now have dropped to 20 to 1.

Comeback

In 1974, he trailed by nine shots after 36 holes. He was never in the lead until the very last hole. Now that's a comeback.

After three rounds of the 1975 tournament, Miller was dead-last in a 30-player field. That night he experienced chest pains and thought he was having a heart attack.

"Please, God, don't let me die when I'm in last place," he implored.

It wasn't a seizure and obviously Johnny didn't die. However, he wasn't taking any chances. The next day he shot a 7-under 65, one shot off the tournament record, and finished 15th.

Miller will be shooting for the \$45,000 first prize in the \$225,000 Silver Anniversary edition of the MONY T of C. It starts today at the beautiful La Costa course, 30 miles north of San Diego.

Jack Nicklaus, the only four-time winner, is the favorite at 6 to 1.

Defending champion Don January, 1975 winner Al Geiberger and 1977 leading money winner Tom Watson are the next choices at 8 to 1.

Other highly regarded shot-makers include Lee Trevino, Dave Stockton, Raymond Floyd, Ben Crenshaw, Rik Massengale, Dave Hill, Buddy Allin, David Graham, Lee Elder, Roger Maltbie and J. C. Snead.

Friars Sign Fourth Rated Kerry Reid

The San Diego Friars have signed Kerry Melville Reid after acquiring her contract in a four-player trade with the Boston Lobsters. It was announced by Allan Kingston, the team's general manager.

Reid had the fourth best competitive record last year among all women and rated third in her matches against competitors listed in the top 50. She presently is ranked eighth in the world.

Reid and her tennis-playing husband Raz, whom the Friars also have signed, were acquired for Terry Holladay, a San Diego regular last season, and Wendy Turnbull, the team's top selection in last January's draft.

The winner of this year's Australian Open, Reid was a finalist in the U.S. Open in 1972, losing to Billie Jean King. Last year she was a Wimbledon quarter finalist. She won 73 per cent of all her matches last year and a similar showing, despite nagging injuries, against major competition placed her behind only Chris Evert and Evonne Goolagong and ahead of such stars as Martina Navratilova, Virginia Wade, Rosie Casals and Betty Stove.

4 Times Top

She has placed among the top money winners four times, 1971-74, and presently ranks ninth on the all-time list with earnings of more than \$300,000.

The 29-year-old Reid, a three-year World Team Tennis veteran, won 22 of 30 matches in non-WTT 1976 competition and this year defeated Dianne Fromholtz in the Australian Open finals, her first Grand Slam event victory.

At 5-6 and 125 pounds, she has a WTT record of 499-501 in games played in singles competition, last year edging Martina Navratilova, 23-22, in their four-set competition.

Often bothered by nagging injuries that have restricted her potential, she defeated Evonne Goolagong, 9-7, 1-6, 6-2, in a quarter final Wimbledon match in 1974 after losing a heartbreaker to King, 9-8, 8-6, a year earlier. Both matches are considered Wimbledon classics.

Probably her most significant victory, prior to her Australian Open win, was her 6-4, 6-2 conquest of Chris Evert in the quarter-finals of the 1972 U.S. Open. She owns three Virginia Slims championships; Newport, R.I., 1971; Detroit, 1972; Tucson, 1973.

Raz Reid skipped last year's WTT schedule after playing two years in Boston. He is a strong mixed doubles player with a winning 123-121 game record in that department.

Kerry and Raz were married in April 1975, the first organized professional sports married teammates.

The Friars will open their home WTT season April 23 at the Sports Arena against the Los Angeles Strings. Season tickets for all 18 home matches are available at the Friars' offices, 1660 Hotel Circle North, San Diego 92108.

USD Baseball Team In 3 Game Series

This weekend USD's baseball team (18-10) plays a three game series against the top-ranked team in NCAA Division II college baseball, the UC Riverside Highlanders (23-11).

On Friday UCR will visit the Alcalá Park campus for a single game at 2:30 p.m.

On Saturday, both teams return to Riverside to play a twin bill starting at noon on the UCR campus.

Not-so-Cocky Reds Here For 3 Games

The San Diego Padres are closing out their first home-stand of the young 1977 National League campaign afternoon encounter today with the San Francisco Giants and then three games with the two-time defending World Champion Cincinnati Reds. The Reds will probably approach the Padres gingerly after dropping the final two games of the opening series.

Today's game is the first of four Business Specials with game time at 1 p.m. instead of the usual weekday evening starting time of 7 p.m.

Then, it will be right into the fire for three more contests with the Cincinnati Reds Friday through Sunday. The Padres and Reds had opened the season against each other last week back in Cincinnati as the two clubs played the first game in the majors on April 6. After dropping two, the Padres made a heroic comeback and evened it up.

The schedule calls for 7 p.m. tilts at San Diego Stadium Friday and Saturday evenings with the series and homestand finale coming on Sunday at 1 p.m.

Two promotional events on tap during the series with the Reds will be the first of five Family Fun Center Picture Pack-Autograph Nights on

Saturday and then 7-Up Batting Glove on Sunday with the first 15,000 youngsters 14 years of age and under receiving a free batting glove.

When the Reds leave, the Padres will take to the road again to journey to Atlanta for three games with the Braves Monday through Wednesday, April 18-20. The Padres will also meet Houston on the short two-city swing, testing the Astros April 22-24 with a doubleheader on the 23rd sandwiched between a couple of single games.

"I was quite pleased with the way we played in the opening four games back in Cincinnati," said manager John McNamara, just beginning his fourth year at the club's helm. "The weather on opening day (snow furries early in the day and temperatures only slightly above freezing) was not the best for baseball, but things did get better and I think we made a good accounting of ourselves."

"Frankly, I'm looking forward to us playing better ball against the Reds here in San Diego as were unlucky on a couple of occasions back there," continued the Padre skipper. "A hit here or there, especially in the first game, would have improved our overall showing."

TAKE FIVE

by John E. Wirges

Pity the poor wife-mate who has plans for garage cleaning, dirt turning, mattress flipping, window washing, garden spading, spring planting, wall washing, general house cleaning or plumbing repairing this weekend. As sure as God made little potatoes hard to peel, none of it ain't gonna get done.

There's just too many other manly things to do. The Padres are playing, big time golf has returned and the Mariners are fighting the Winniepgs in a season killing playoff. It's our weekend, guys.

Who could keep his mind on window washing with all that going on? Any wife who would keep a man tethered to home this weekend probably stands against drinking hard liquor and reading "Playboy" as well. It's almost un-American. A communist plot.

Home working is almost a civil sacrilege this All-American weekend for any one of three reasons. Not counting girl watching.

And the MONY Tournament of Champions underway at beautiful La Costa just has to be rated one of the high points of the year. Especially this year. Jerry Pate pulled out with shoulder miseries leaving 32 current PGA tour champions to shoot for MONY's money.

The MONY Tournament of Champions is the only golf test dreamed up by man that could follow the Masters golf clash with sweet anticipation and sheer excitement. Only winners tee up in the MONY ToC and even the last place finisher pulls down something like \$3,000. Everybody's a winner at La Costa this week, especially the viewing crowds.

The very best in golf is put on display without frills or fancy trimming. It is pure and simple play, the way God intended it to be.

And, on the other hand, the devil himself might have had a hand at rigging up the course. Somewhere deep inside host pro Tommy Jacobs' soul lies a malicious sense of humor.

Tommy has the place dressed so tough lesser men than real champions would tee their balls in terror. Fairways are cut down to two or three feet wide, the grass challenges the trees in sweeping the sun across the skys and there's more water running around than San Francisco is short of.

All the names are here. Jack Nicklaus, Tom Watson, Ben Crenshaw, Lee Trevino, Rik Massengale, Johnny Miller ... Plus a host of first time winners, including the likes of Andy Bean, Gary Koch, Mark Hayes and Bruce Lietzke.

They'll play in two-somes and probably get done early enough for real sport's fans to drive the 30 miles to San Diego Stadium and root the Padres to victory over the World Champion Cincinnati Reds.

The tough and talented Padres are ready to take on the world and show they are worthy of early orders for playoff tickets this year. They are bonafide contenders ... make that CONTENDERS.

Randy Jones seems to have a spirited brother in rookie Bob Shirley, who might be the first Padre freshman to win 20 games.

Dave Freisleben is a year older and a ton more confident. The kids up the middle will get over any shakes in short order and get nothing but better as the season moves on. And the big names added to John McNamara's roster this year are playing as large as their salaries. And that's some big. So who's afraid of the big bad Reds?

There'll be a day game today (Thursday) for business types and such, and a sun contest on Sunday, as well. The San Franciscos today and the Cincinnati over the weekend. You can't beat that.

But if you've got a mind to try, the Winniepgs are here in a life and death struggle with the Mariners in a challenge for the supremacy of the World Hockey Assn.

Now add 50 miles of fabulous beaches, marvelous fishing, surfing and girl watching, 75 golf courses and thousands of tennis courts and you see why house work just ain't gonna get done this week.

ing a bus there anyway," Dorfman said.

District Maintenance chief Jerry Heath stood up to tell his bosses his staff would carry out any plan the Board would adopt and added, "When you decide, don't decide on a safe way because there is no safe way," Heath said. "Look for the safest possible alternative but expect the worse regardless."

A motion to move the stop by Member Vicky Morgan died for lack of a second. The board decided to hold the issue until the next meeting.

10 Guns Stolen From L.G. Man

The arsenal assembled by Gene Francis Ranstead at his home at 7406 Mt. Vernon st. in Lemon Grove, is gone.

A burglar parked an aged Cadillac — approximately 1959 — in his driveway and pried open a kitchen door from the garage.

A neighbor, who noted the car, was only able to describe the suspect as being 20-30 years of age.

He took guns, rifles, shotguns, currency, coins and a pillowcase. The latter was used to carry the loot.

Among the firearms were 2 Colts, 3 Marlins, 3 Winchester and a Remington. There was also a handgun of undetermined make.

Old silver dollars worth \$125 were also taken.

Ranstead's total loss amounts to \$2,350, he said.

Congress Passing More New Laws

1976 Income Tax Returns May Become A National Disaster

This year's income tax by preliminary estimates could be one of the biggest bureaucratic boondoggles in history.

The deadline for filing returns is midnight tomorrow night and one Internal Revenue Service specialist predicts people will turn out in record numbers to get their forms in the mail on time.

IRS Taxpayer Service Specialist Pat Lund, stationed in the downtown San Diego Federal Building, cited new forms, indecision by Congress, confusion on filing, and collecting last minute interest as the major reasons for the rush.

"Large numbers of people have waited to file," Lund said. "We are having a great number of requests to file late—get deadline extensions. We are going to have a dandy-whoopie year."

New Forms

Mrs. Sund said Congress passed last October major changes in the law creating new forms such as Short Form 1040A, the new tax credit system, and the new standard deduction procedure.

For the first time, taxpayers filing short forms (1040A) may compute their standard deduction up to 16 per cent of their total wages. This is causing a lot of returned forms.

Congress Dragging Feet

Mrs. Sund said Congress, as of last week, was still making amendments to the tax bill passed last October. These amendments, even though they are passed a week before the filing deadline, be-

come effective as of the 1st of January 1977.

This means for those who have already filed, the IRS will have to return tax statements to some taxpayers to comply with the changes.

Two categories of tax payers who certainly will have their statements returned are: —Taxpayers who made over \$15,000 outside the United States during 1976. Up to last Wednesday, the law read anyone making \$20,000 per year abroad had a tax exemption on it. Congress late Wednesday night dropped that down to \$15,000.

—Also, retirees on disability pensions will most likely get their tax returns back. Recent

changes in the law make mandatory for total disability and under 65 years of age requirements before retirees may deduct \$100 per week for pensions.

IRS In Trouble

"We don't know what the Service is going to do," Mrs. Sund said. "We could be up to next year going over tax returns."

"People smart enough to make money," she added, "aren't even smart enough to figure this out."

The main post office at 2535 Midway drive will have on duty tomorrow night until midnight a staff of workers to collect tax returns.

Lemon Grove, Spring Valley Residents Qualify Health Agency Seeks Members For New Local Advisory Board

A grassroots health services governing body will be formed of interested citizens and medical professionals for the East County and may include Lemon Grove and Spring Valley residents.

The Health Systems Agency of San Diego and Imperial Counties, a health care watchdog developed by joint efforts of the Imperial and San Diego County Boards of Supervisors, will seek members to a Subarea Advisory Council for Eastern San Diego County.

This group will be composed of 30 area residents of which 16 will be consumers and the remaining physicians, nurses, and practitioners from the health care field.

The Subarea Advisory Council will report to the Health Systems Agency on local health problems and needs. Currently serving on that board is Mrs. Edna Kidwell, 9430 Crest dr., Spring Valley.

According to Ed Schultze of

the HSA, applications will be accepted from interested East County residents. Letters will be sent to these applicants informing them of the date for a public forum to select a nominating committee.

This nominating committee, according to Schultze, will be selected from five people attending this meeting to be held sometime in mid-May. This committee along with the members of the HSA will determine the make-up of the Subarea Advisory Council.

Individuals and representatives of groups must reside in the Lemon Grove, Spring Valley, La Mesa, El Cajon, Alpine, Campo, Cuyamaca, Descanso, Dulzura, Lakeside, Santee, or Pine Valley area to be eligible for membership.

Applications are available to the Health Systems Agency, 2831 Camino Del Rio South, Suite 204, San Diego 92108 or by calling 297-4721.

Cranston Blasts New CIA Chief On Gov't-Press Relations

U.S. Senator Alan Cranston (D-Calif.) has come out against any efforts to impose new penalties "criminal or civil" against government employees who leak information to the press.

Speaking before a government affairs conference of the National Newspaper Association, Cranston said, "The greatest deterrent to wrongdoing or folly in government is fear of public disclosure. We must not muzzle federal employees who in good conscience reveal violations of

the law or wrong behavior."

Cranston's remarks took a shot at Adm. Stansfield Turner, new CIA head, who has said new criminal sanctions should be provided by law to punish government employees who violate an oath of secrecy.

"We don't need more secrecy laws," Cranston said, "We already have strong criminal laws against espionage, theft of government property and improper disclosure of intelligence information."

Television Taken

A Zenith 19" television valued at \$300 was taken by a burglar from the residence of Earl Raymond Hay, 3280 Olive st. Lemon Grove while he was away on April 5.

Marks on the front door appeared to have been made by a pair of pliers.

Current fashion of the bureaucracy is to log all phone calls and to jockey reporters from department head to public relations people.

Also affecting the issue are directives by such groups as the People's Bicentennial Commission of Boston who last year offered \$10,000 rewards to executive secretaries turning evidence against their bosses into U.S. Attorneys.

John Stenbeck

R.E. Firm Adopts Unique Pay Plan

SGS Real Estate Co., Inc. of Lemon Grove has a new 100 per cent commission program for associates of its eight Greater S.D. offices. In planning stages for six months, the commission concept replaces the firm's former commission split.

"We set out to offer the highest possible compensation to our agents," John Stenbeck, Chairman of the SGS board told associates at a company meeting at which he explained the new concept, "and we think we've got it."

Under the new program, now in effect, associate receives 100 per cent commission on each transaction.

The program is geared for the proven professional salesperson, Stenbeck said. "It offers most of the privileges of being an independent contractor without the responsibilities of operating your own business," he said.

Associates now can decide what level of advertising is sufficient for their business, how many mail-outs and where to send them. They decide their own hours and set their own goals without quotas. They may build their own investment portfolios by buying and selling property without paying a commission.

"They have several privileges of the independent contractor without being saddled with many of the commitments of an independent broker, as signing a long-term office lease, buying furniture and hiring and training secretarial and bookkeeping personnel," Stenbeck explained.

"Every salesperson pays the company the same fair amount, which leads to greater equality for all."

SGS, a member of Berg Enterprises, Inc., has its business office in Lemon Grove and sales offices are located in Mira Mesa, Clairemont, Paradise Hills, Chula Vista, Lemon Grove, El Cajon, East S.D. and Santee. Berg Enterprises is listed on the American Stock Exchange.

Open Ear Promised

To Business People

State government is now lending a sympathetic ear to business people who have complaints about bureaucratic red tape, according to Assemblyman Pete Chacon.

"A toll free number 800-952-5502, has been established in the new office of business development to help both small and large businesses cope with complex government regulations and to encourage out-of-state firms to set up shop in the State," Chacon said.

"The office was recently created to help combat California being portrayed as anti-business. Its employees have already been in touch with several out-of-state firms interested in relocating on the West Coast," Assemblyman Chacon reported.

'Make Mine Coors'

Deputies were told that the only thing missing was a Coors Beer Sign worth \$150.

Damage to the glass front door was \$50.

Letters To The Editor

Fairest of All...

April 2, 1977

Dear Editor:

The American Independent Party has conducted a study of news media during the 1976 election campaign in San Diego County. The study concerned itself with the fair and objective coverage afforded our candidates by newspaper, television and radio media.

The award will be presented at our annual banquet on Friday, April 22, beginning at 7 p.m. at the College Grove Community Hall in the lower level of the College Grove Shopping Center. You are cordially invited to join us for a complimentary dinner and to receive the award. We look forward to seeing you there. I would appreciate if you could advise me of your attendance by Monday, April 18. Thank you.

Respectfully yours,
James E. Hicks
Chairman, American Independent Party

Bulletproof Vests

Dear Editor:

Many months ago Mayor Wilson spoke of the pressing need for San Diego to provide our police with bulletproof vests. Apparently his words fell on deaf ears as the welfare of our police has always been an unpopular cause, and the vests are still forthcoming.

On March 7th, a policeman's, of the Englewood Police Department, life was saved by a bullet proof vest supplied by his department, when he was shot by a robber firing a high powered rifle.

\$3,000 RAISED — Sixteen-year-old Joleen Doughy, right, prepares to count the change she received along with her brother Jerry, 14, and a friend Cathy Adamo, 16, during a recent Muscular Dystrophy walk-a-thon. All three live in Spring Valley and joined with 1,000 other San Diego volunteers ringing doorbells for donations. The volunteers collected some \$3,000 that will go for Muscular Dystrophy research.

Sen. Carpenter's Bill Would Overthrow Serrano Decision

SACRAMENTO — A Constitutional Amendment to overturn the State Supreme Court's ruling on school financing, the "Serrano decision", has been introduced by State Senator Dennis E. Carpenter.

"The Serrano decision potentially could cost the State's taxpayers more than \$1 Billion and reduce our consideration of education to a simple matter of dollars. Pe, my proposal to refer the issue to the voters is the first in the Legislature," Carpenter said.

"If implemented, the Serrano decision will set California education back 100 years," Carpenter said. "Educators have worked for decades to identify the various things that go into successfully teaching kid how to read, write and do arithmetic.

"Now, stampeded by the State Supreme Court, the Governor and some people appear ready to throw all this out the window and proclaim money as the sale answer. Well, it isn't."

Claims Unequal Base

Essentially, the State Court found that the existing system of school finance, because it was based substantially upon local property taxes, gives some school district a greater amount of revenue to spend per pupil. This the court said, violated the equal protection clause of the State Constitution which requires that all citizens (in this case pupils), be treated equally.

"Interestingly," Carpenter observed, "in a similar case based on identical language found in the U. S. Constitution the United States Supreme Court came to an opposite conclusion."

Carpenter's measure would nullify the court's decision by rewriting the State Constitution to clearly permit a school finance system based on local finance and control, but requiring the State to insure the minimum level of financing necessary for a basic education. If successful, it would appear on the June 1978 ballot.

"It is important to note that with Serrano no one is proposing the elimination of the property tax for school purposes," Carpenter said. "Additionally, what is being proposed would forever deny local voters the right to decide to increase their support of their schools.

Raise to Wealthiest?

"The solutions to the Serrano problem seem to follow one of two concepts," Carpenter explained, "either it is suggested that existing property taxes be retained and State spending, financed by

other taxes, be increased to bring all school district up to the spending of the wealthiest, or it is suggested that we take the property tax dollars of one district to support the schools of another district.

"There are two major problems with the Serrano decision," Carpenter said.

"First is the assumption that an equal education costs the same throughout the State. Clearly when you consider the differences in living costs, the transportation costs of some districts, and overhead costs, this isn't true," Carpenter maintained.

"Second is the assumption that money is directly related to education. In fact," Carpenter said, "objective studies on the factors that influence education have concluded that increasing expenditures is not likely to improve educational outcomes substantially.

Lawmakers Gave Aid

"The Legislature has responded to this truth and in recent years measures have been enacted to increase the accountability of teachers, enable school districts to exercise greater latitude in their decisions, and increase the involvement of parents in the educational process to name just a few.

"There is unfairness in the extremes between high wealth and low wealth school districts," Carpenter said, "but this can be solved with state aid programs. We need to adjust the present system of school finance, not destroy it."

Carpenter noted that the present system of school financing has been developed over several decades to meet many special needs. "It needs constant improvement," Carpenter said, "but it does grant local voters a voice in the allocation of tax dollars and a voice in the education of their children.

"The importance of this should not be overlooked, for people want control over their lives and the lives of their children. The Serrano decision threatens that."

Museum to Exhibit New Displays of Man

Playboy Enterprises Inc. has donated to the San Diego Museum of Man \$50,000 worth of life-size figures of prehistoric men.

Playboy built the figures for their movie "The Naked Ape" which depicted man in various stages of evolution.

The exhibits at the museum will be an exhibit of Java Man which includes animals and artifacts from Indonesia. Display will appear in three evolutionary stages; early (2 million years ago), middle (3/4 million years ago) and late (200,000 to 40,000 years ago).

Also Peking Man, Neanderthal Man, Cro-Magnon, Ramapithecus, and man's development in Africa will be displayed in various exhibits.

Linkletter

N.U. Grad Program Lists Linkletter

Art Linkletter, who, began a remarkable career here in San Diego 43 years ago, will return April 17th to deliver the 1977 commencement address at National University.

Linkletter began his broadcast career as an announcer with San Diego's KGB radio station while attending San Diego State College. By the time he graduated in 1934, he had become chief announcer at the station, and later worked for a short time as KGB program director.

Although Linkletter is best known for his entertainment career it is not surprising that he has been asked to headline the ceremonies at the business and management-oriented university. In addition to his having been a well-known radio and TV personality for more than 40 years, he has achieved considerable stature as a businessman, as well as authoring many best-selling books.

Linkletter has served with numerous people-oriented organizations, and is vitally concerned with an ongoing crusade against drug abuse. He participates on the President's National Advisory Council for Drug Abuse and the National Coordinating Council on Drug Abuse Information and Education.

The National University graduation ceremonies will be held at 1:15 p.m. Sunday, on campus. The graduation will be preceded by a private brunch for the graduates and their guests. The graduation theme will be "We've come a long way together."

Degrees to be awarded Sunday include 76 masters, 119 bachelors and 10 associates.

torney for the new City of Lemon Grove. "The National City manager draws \$35,000 a year," Park said, "and a part-time city attorney draws \$65 an hour." Parks was of the opinion that a manager could be acquired for Lemon Grove in the \$28,000-\$30,000 range.

The council will also be called upon to have conferences with several departments of county government and with committees of the departments.

The council will want to adopt an official seal. A contest is already in the works for local residents to offer suggestions for the logo.

Seating Ceremony

The official seating of the city council on July 1 will be mostly ceremonial but it has to be planned. The council appointed Karen Thomson (she was co-chairman of the incorporation committee); Donna Beckley, LG-SV Soroptimist Club; Dr. Griff Clark, president of the L.G. Chamber of Commerce; Bob Adams, L.G. Fire Chief, Dell Lake and Jack Doherty, councilmen. Lake is chairman.

The council decided to use the Fire Protection District Post Office box number for communications. It is P.O. Box 65, Lemon Grove, CA 92045.

DMV Cuts Could Save Taxpayers \$2 Million

SACRAMENTO — The California Department of Motor Vehicles in the middle of a housekeeping reorganization operation has proposed to the Assembly reforms that allegedly would save the state more than a million and a half dollars annually.

Proposed to the Assembly April 1 by DMV Director Herman Sillas was 25 program improvements "which have the potential of significantly reducing program costs."

Some of the proposals are: —Biennial registration and/or alternate forms of revenue collection such as a fuel surcharge at the pump to reduce the costs of annual vehicle registration.

—Improvement of the accuracy and capacity of computerized registration records.

—Adoption of new procedures for handling dishonored checks.

—and Expanding personalized license plates to seven characters from the present six.

The improvements have a potential savings from \$250,000 to \$2 million, Sillas said.

Sillas is also proposing the firing of about 50 DMV staff workers.

Center To Hold All Night Party

The Effective Problem Intervention Center, Inc., of Lemon Grove will throw an all-night party to raise funds.

The party begins at 7 p.m. Saturday at 7580 Church st. right after the day's activities at the Family Town Meeting. Dinner, live music, and space-age electric games are included in the \$2 donation. The party is expected to break-up at sunrise.

EPIC is a Lemon Grove based 24 hour counseling service for all ages handling cases in crisis intervention, youth projects, and emergency services.

Tom Parks agreed to answer question regarding city matters—questions that have gone mostly to this newspaper and to the L.G. Chamber of Commerce.

Parks can be reached at 236-2106 daytime. He will answer questions on such matters as sidewalks, barking dogs, parking, parks, tax rate, zoning, planning and others.

In most cases he will have to say that many of the decisions cannot be made until July 1 — but he can explain the law as it now exists. The councilmen are professional people who are engaged in earning a livelihood and are not always accessible. Dell Lake, who calls himself retired, admits that he is working about as much now as he did before he chose retirement.

The next official advisory committee and unofficial council meeting is 8 p.m. April 21 at the Lemon Grove Fire Station on Central ave.

Sups Call Night Meet on Housing and Population

The San Diego County Board of Supervisors has scheduled a special evening public hearing for Monday for discussion of the preliminary regional population and housing forecasts.

The meeting will be held from 7 to 10 p.m. in the South Chambers on the third floor of the County Administration Center, 1600 Pacific highway in San Diego.

The forecasts were prepared by the Comprehensive Planning Organization in cooperation with planning staff from the County and the City of San Diego. Agencies throughout the county are currently reviewing the preliminary forecasts.

Public comments and staff review will be used in revising the forecasts, if necessary, before they are formally endorsed by elected officials in the region, including the Board of Supervisors.

The formally-endorsed population and housing forecasts will be critical to the County's planning and development activities.

These new population projections are based on information from the 1975 Special Census. The population trends which become apparent from this new census information showed the last forecasts, based on 1970 census data, to be outdated.

Helix Water Discolorations Due to Reservoir Switch

Water in the Lemon Grove area may come out of the tap a little discolored during the next few weeks due to a storage tank switch made by Helix Water District engineers.

Helix Water District General Manager C. G. Watters, Jr. said they are going back to the old reservoir until a new 30 million gallon buried concrete storage facility is built.

Watters said the Grossmont Reservoir, currently serving the Lemon Grove area, had to be drained so that contractors from the Oberg Construction Company could install an earth cofferdam.

The District transferred its water supplies to the old reservoir April 5 and plans to use it for the next 12 months.

The discolorations in the water will last only a few weeks and have no effect on the safety.

Watters said the water has been extensively tested and chlorinized to insure purity and safety.

Part of the system is a computer which can locate customer's records in a matter of seconds.

SDG&E receives at peak some 6,500 daily calls.
